

## Board of Directors and PAIMI Advisory Council Values Inquiry

Disability Rights Montana (DRM) is a civil rights organization for people with disabilities. As such, it is fundamental that its Board of Directors and PAIMI Advisory Council, individually and collaboratively, defend DRM's core values of equality, liberty, and self-determination. Please answer the questions below. Your answers are for your reflection and will help us evaluate your suitability to be on the Board of Directors and PAIMI Advisory Council.

There are no right answers. There are, however, answers that are consistent with the core values of the organization.

On a scale from 1 - 5, please circle the number that most accurately reflects your level of agreement or disagreement with the following questions:

- Do you believe people with disabilities are full and equal citizens under the law and are entitled to equal access to the opportunities afforded to all members of society?**
